### **ABOUT THE INSTITUTION :**

Dr. Ambedkar College, run under the aegis of 'Param Pujya Dr Babasaheb Ambedkar Smarak Samiti, is situated in the sprawling premises of the holy Deekshabhoomi, which is the historic place where Dr. Ambedkar embraced Buddhism. With a modest beginning in 1964, the institution now has 50 glorious years of experience in imparting quality education in the faculties of Arts, Commerce, Science and Law. With its uncompromising standards of excellence, the College believes in imparting man making and character building education. The re-accreditation of the college at the highest A Grade by NAAC and the status of 'College with Potential for Excellence' conferred by the UGC bear eloquent testimony of its unshifting commitment to quality. Students at DACN come from diverse backgrounds who mingle together to form an amazing mosaic of cultures and contrasts. Dr Ambedkar College is truly a college like none other and it is not surprising that it has won a special place in the academic and sports landscape of the Nagpur city.

### **ABOUT NAGPUR :**

Popularly known as the Orange City, Nagpur is the second capital of Maharashtra State and the second greenest city in India. Located at the very center of the heartland, almost equidistant from Kolkata, Chennai and New Delhi, it is the largest city in the entire central India belt and a key transport hub, where major national highways intersect. At the very centre of this national center is Zero Mile, marked by the stone obelisk that the British placed there, engraved on which is the list of cities, with distance to each of them. The huge and beautiful Lord Buddha's stupa of architectural excellence is erected in the centre of the city at Deekshabhoomi which is a symbol of purity, prosperity and peace & also referred to as the eighth wonder of the world.

## ABOUT THE CONFERENCE :

The emergent interaction between sports and law has shaped a new need for a greater understanding of how the law relates to the sporting world. Sports Law encompasses a multitude of areas of law brought together in unique ways. Issues such as contracts, and torts are quite common.

Sports Law can be roughly divided into the areas of amateur, professional, national and international sports events, recreation and adventure sports. Legal issues within sports, recreation and adventure sports organizations are wide and varied. As the industry has become more professional, Sports law is based on how the law in general interacts with the sports activity.

This conference focuses on the legal aspects of care and supervision in sports activities at all places of sports coaching and sporting competitions like schools, colleges, sports clubs, sports associations etc. The objective is to create awareness amongst the organisers, players, sports teachers, coaches, students and their parents regarding the safety and care measures and supervision that is expected to be provided by those providing training and coaching to players at all levels. The aim is to bring into focus the law of negligence that applies where proper supervision and care is not provided and to highlight the other allied laws and regulations that affect sporting activities.
